

## Aaron Prefontaine

Executive Adjuster

Aaron began his professional career working at Suncor in an HR/Payroll capacity. Moving on to system integration Aaron worked closely with Operations personnel to help develop, improve and integrate systems to suit operational needs. Continuing with Systems and Operations, Aaron joined Marine Terminal Corporation/Ports America to assist with US West Coast Port System development.

In 2008, Aaron relocated to Houston to take a position within the Insurance Industry. Initially joining Charles Taylor Adjusting, and then York SLA in 2014, Aaron developed his proficiencies through training and servicing Energy and Commercial Property claims. Claims experience includes losses ranging in quantum from US\$15,000 to S\$128,000,000

In August 2017 Aaron joined Integra Technical Services from York Specialized Loss Adjusting, where he had been working claims across the mid and downstream energy sector, as well as complex commercial claims, construction all risk and pollution liability claims.
