

Fred Popko

Senior Executive Adjuster

Licensed Adjuster

BEng MBA CPCU

Prior to joining Integra Technical Services, Fred practiced as both an in-house insurance company engineer/adjuster and an independent claims adjuster. He has 27 years of experience managing complex claims in technical lines of specialty insurance business across numerous states in North America.

Fred began his professional career in the commercial property insurance industry in 1987 as a Risk Engineer for Factory Mutual Engineering Association. In 1990, Fred transferred to Factory Mutual's Adjustment Division where he handled large/complex property claims and was a member of FM Global's Catastrophe Team.

In 2006, Fred joined Zurich North America's Large Loss Unit as an Executive General Adjuster. While with Zurich N.A., Fred worked extensively with Zurich's Global Energy Business Unit managing both Upstream, Mid and Downstream Energy claims.

Fred transitioned to an independent adjuster when he joined York Specialized Loss Adjusters in 2011. Whilst there Fred continued to manage high profile technical claims in the Mid and Downstream Energy, Mining and Construction and Engineering sectors. Fred has successfully adjusted claims ranging value from US\$200,000 to US\$125,000,000.
