

## Steve Norrington

CHARTERED LOSS ADJUSTER & ENGINEER  
BSc (Hons), C Eng, FIMechE, FCILA

Steve began his career in 1975 as a craft apprentice with Exxon Mobil at their Coryton Oil Refinery, UK, progressing to the position of Project Engineer.

In 1984 he moved into International Loss Adjusting, initially based in London, with subsequent overseas postings in Singapore, Caracas and Houston.

In 1992 Steve returned to London with Crawford Global Technical Services, working on major property damage and business interruption losses within the power generation, oil refining and petrochemical sectors, continuing in the same fields since joining Integra Technical Services in November 2017.

## Qualifications

BSc (Hons) Mechanical Engineering, London University

Chartered Engineer

Fellow of the Institution of Mechanical Engineers

Fellow of the Institute of Loss Adjusters

## Work experience

- Refinery Maintenance & Project Engineer – 9 Years
  - Exxon Mobil Coryton Refinery, UK
- International Loss Adjuster – 34 Years
  - Toplis & Harding, London
  - Thomas Howell Keiwitt, Singapore
  - Toplis & Harding, Caracas
  - Crawford, Houston
  - Crawford Technical Services, London
  - Crawford Thailand, Bangkok (2 Year CAT secondment)
  - Integra Technical Services, London

## Specialist areas of activity

- Nuclear, Thermal and Hydro Power Generation losses, both Operational and CAR, with extensive experience of turbine, generator and transformer breakdowns.
- Oil Refining and Petrochemical Losses, predominantly following process unit fire and explosion, including the application of Linear Programming in quantification of ensuing BI.
